

MilliKey™ 30mm Button Caps

MilliKey LH models can optionally use different interchangeable solid color and clear-top button caps, which can be purchased in packs including 8 to 10 button caps and a removal pin.

Color Cap Pack (30mm)

CP30-CMIX-10

Includes 12 solid color caps (2 red, 2 yellow, 2 green, 2 blue, 2 black, and 2 pink) and one cap removal pin.

Clear Cap Pack (30mm)

CP30-CLKW-8

Includes 8 clear caps, four with white and four with black inner tops, and one cap removal pin.

Changing MilliKey™ Button Caps

1 Insert removal pin between button cap and outer button ring.

2 Push pin to button bottom and rotate ~ 45° towards button cap.

3 Place finger over cap, pull up on pin to lift cap out of the box.

4 Insert new cap into button hole and rotate until cap is in place.

Please email support@labhackers.com with any questions.
